

STUDENT VOICE INNOVATE MOBILIZE EMPOWER CONNECT

CHAPTER PROJECT **Empowerment**

MONTANA CAREER ASSOCIATION

LEAD

MONTANA CONFERENCE

October 25, 2016

Radisson Hotel Helena, MT

Objective

One of Jobs for Montana's Graduates (JMG) goals is to provide each student with a skill set to be successful in the future. The tools you are provided with are designed to empower you to make changes and impact the future for yourself and your community. This year we want you to reflect on the tools you have gained through JMG and share those tools with others.

Each JMG chapter will reflect on what empowerment means to them prior to the LEAD Montana Conference. After reflecting and discussing, each chapter will create a 3-D vessel to hold all of the tools you have learned through JMG. There is no limit on the amount of tools that can be in your "kit".

DIRECTIONS

- Work together as a chapter to determine what tools you have acquired through JMG. Design or find a representation of each of the tools.
- Create a 3-D vessel to hold the tools you have created.
- Each tool placed in the vessel must be accompanied by a description of how the tool contributes to the success of a JMG Member.
- Working within a \$25 budget, you may use whatever materials you would like, either purchased or donated. A budget for your project will need to accompany your project.
- Bring it to LEAD Montana Conference to display!

GUIDELINES

- Tool "kit" needs to include a description of each item and how it supports your success.
- The budget needs to accompany your display, account for both paid and donated items.

NOTE: This exercise is DIFFERENT from the Logo Competition. The Logos are due September 23, 2016 as part of your LEAD Montana registration, along with any Essay Competition submissions from your students.

The Empowerment Project is due at the LEAD Montana Conference on October 25, 2016.
